

## Ritchey Hume, Founder & CEO, Senior IT Consultant

Ritchey has over thirty years of experience as an information technology professional. In management positions, he led projects and supervised other information systems professionals, provided IT consulting to government and commercial organizations, and delivered high-end technical training to information technology professionals.

Mr. Hume has spent the last eleven years consulting and training on Microsoft SharePoint Products and Technologies. He has taught many classes on SharePoint applications involving customization and development, administration and configuration, and power user and end user topics. He authored a 600page training manual for Windows SharePoint Services 3.0 power users. Mr. Hume assisted large and small enterprises from the commercial, government and education sectors in planning, deploying, and customizing SharePoint. He specialized in technical leadership of SharePoint and ASP.NET development projects and has architected and developed Microsoft SharePoint based solutions since the first versions of SharePoint were released.

Mr. Hume is familiar with all phases of the development life-cycle and has contributed project management, system design, process modeling, testing, and documentation skills. He possesses strong leadership qualities and mentors and trains IT professionals.
